# FROM THE TEAM'S DESK

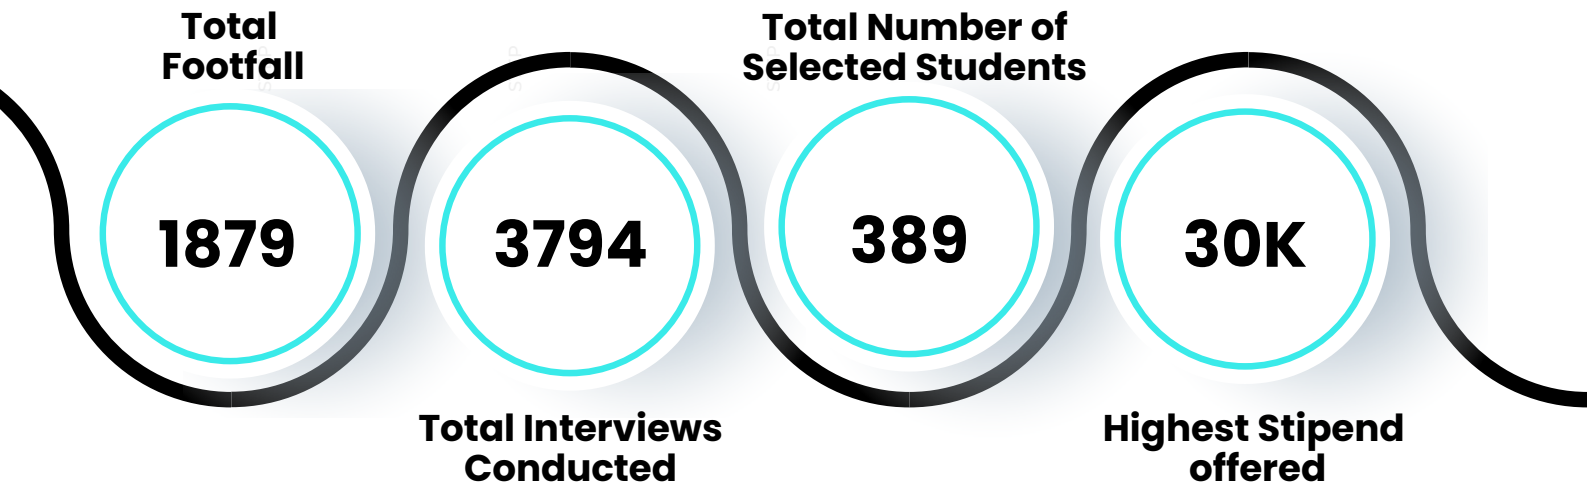

**“To host an event on such a large scale was both an exciting and challenging task for the team especially when things were being done in the physical mode rather than how it was done in the previous two years. As members of the placement cell, the Internship Fair 6.0 to us was like a ship on a roaring sea that we had to set sailing till it reaches the shore.**

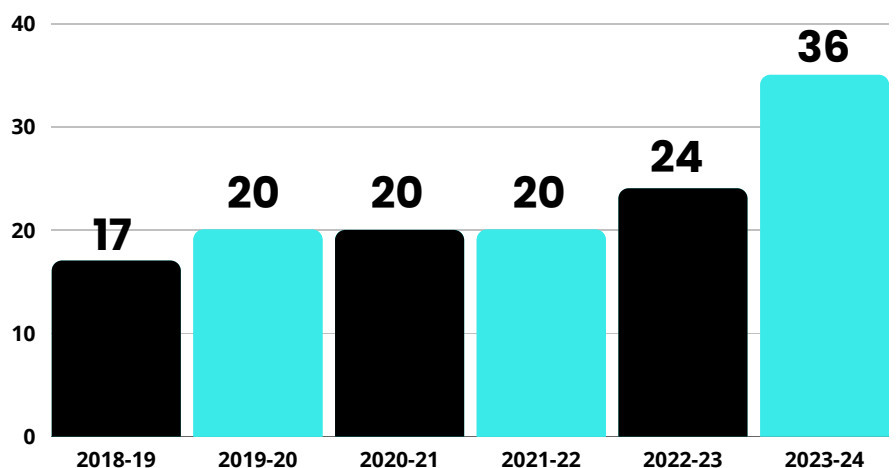

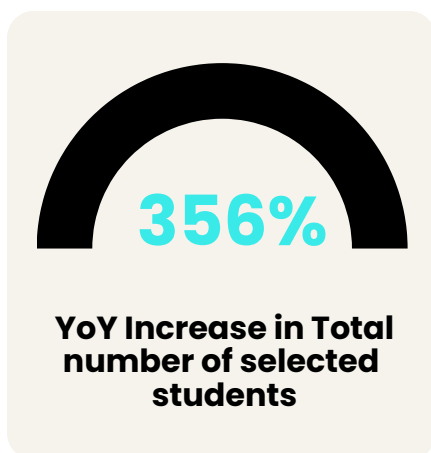

Starting from the days of preparation till the final day, the team worked very hard to provide the best output to all our recruiters and candidates. From making numerous plans and strategies to executing everything on the final day, the team kept their eye out for everything.

The event was successful not only due to the team's hard work but also because of the constant guidance and support that we received from all our teachers. We are especially thankful to all the 35+ recruiters who willingly and patiently cooperated with us and contributed towards the smooth functioning of the event. Lastly, we are thankful to all the students of various other colleges, who believed in us and helped us in making this Internship Fair a Big Success!
